

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

Change Oakland, California, to Oakland, Alameda County, California. (See page 678, one name.)  
Change Sharpsburg, Md., to Sharpsburg, Washington County, Maryland. (See page 680, one name.)

# LETTER

FROM

## THE SECRETARY OF THE INTERIOR,

TRANSMITTING,

*In further response to Senate resolution of December 8, 1882, a list of pensioners on the roll January 1, 1883, &c.*

---

MARCH 1, 1883.—Ordered to lie on the table.

MARCH 3, 1883.—Ordered to be printed.

---

DEPARTMENT OF THE INTERIOR,  
Washington, March 1, 1883.

SIR: In further and final response to Senate resolution of December 8, 1882, I have the honor to submit herewith a list of pensioners on the roll January 1, 1883, giving the name of each pensioner, the cause for which pensioned, the post-office address, the rate of pension per month, and the date of original allowance, the whole arranged alphabetically by towns in each county by States, as called for by the resolution, together with the copy of a letter of the Commissioner of Pensions of the 28th ultimo submitting the matter to this Department.

Very respectfully,

H. M. TELLER,  
Secretary.

The PRESIDENT OF THE SENATE, PRO TEMPORE.

---

DEPARTMENT OF THE INTERIOR, PENSION OFFICE,  
Washington, D. C., February 28, 1883.

SIR: I have the honor to submit herewith a list of the pensioners on the roll January 1, 1883, giving the name of each pensioner, the cause for which pensioned, the post-office address, the rate of pension per month, and the date of original allowance; the whole arranged alphabetically by towns in each county by States, as called for by Senate resolution under date of December 8, 1882.

I regret that the time has been so limited to perform the very large amount of work involved in the preparation of this report, not affording the time necessary to complete the data, which will be found omitted in many cases, as well as a more convenient arrangement of the various classes of pensioners, which I would like to have done.

In the States in which a pension agency is located will be found the names of several pensioners whose post-office addresses are omitted, and the want of time prevents me from supplying the omission.

Believing it to be important that this report should be submitted before the adjournment of Congress, I have made every effort to comply with the requirement of the Senate resolution in a manner as satisfactory as it was possible to do, in the time I have had at my disposal.

If this report is to be printed as an Executive document, and for general distribution, I respectfully suggest that the Commissioner of Pensions be directed to superintend the arrangement by geographical division in the order in which it is to be printed.

I am sir, very respectfully,

W. W. DUDLEY,  
*Commissioner of Pensions.*

Hon. H. M. TELLER,  
*Secretary of the Interior.*
